

Cintique[®]

ETON

The Eton collection offers a traditional yet compact style on a beech wood frame, featuring high back fibre filled cushions for both support and comfort. The reversible seat cushions are supported with a serpentine metal sprung base for durability. The range includes a two seat sofa, standard and petite sizes of chair which are both offered in an average or small height and finally, a manual reclining chair complements the collection. All are available in an extensive range of fabrics. Cintique Fast Track service is available for all sizes in this range in certain fabrics.
