# JAY-BE®

Sleep Smart

Shown here in Stone

Hiding within a modern footstool this space saving guest bed will compliment any interior space. Its unique Roll-out mechanism allows it to be transformed into a comfortable bed in seconds. Resting on the sprung bed base the mattress combines two layers of Airflow Fibre for exceptional support and comfort. A soft top layer provides pressure relief and a higher density lower layer offers extra support.

Embracing absolute attention to detail, the footstool is upholstered in some of the finest fabric which has been specially made for JAY-BE® in Huddersfield, West Yorkshire, England. Huddersfield is respected worldwide for producing some of the best fabrics available today. Made using specialist production techniques, the fabric offers a luxurious feel as well as long term durability.
