DESSER

Founded in 1919 and now in its 99th year, our fourth-generation family run business keeps on growing. We are as passionate today about quality, service and style as our ancestors were almost one hundred years ago.

Design excellence and customer care are at the forefront of our business. Our vision is to create elegant and contemporary cane furniture which suits living rooms, kitchens and conservatories. To deliver this, we offer a constantly developing range of furniture to suit all tastes, complemented by a wide range of fabrics, including the innovative Aquaclean.

Crafted to the highest standards, assembled in the UK and with all cushions made in-house in Manchester UK, Desser furniture is versatile, reliable and durable. Our frames are supported by Pirelli webbing and have a 12 month guarantee and all of our ranges feature Dacron wrapped base cushions to ensure shape retention and softness.

In addition to our indoor furniture, we also produce an extensive range of outdoor furniture, which can be found in our 2018 Desser Outdoor brochure and website.

"We're thrilled with our ranges for 2018 and hope you like them too. There is something to suit everyone's tastes to help turn your house into a home".

Mark Stewart - Sales Director

QUALITY BUILT IN

The environment and us

We take great care in designing and creating our furniture in accordance with all current government controlled environmental legislation. Desser & Company promote Fair Trade and follow a low carbon emission business plan.

Green credentials are increasingly important and so we follow a policy of sustainable sourcing and traditional manufacturing methods to minimise damage to the natural environment.

Our quality rattan is sourced largely in Indonesia, which is the world's biggest rattan supplier - accounting for nearly 70 percent of worldwide trade, and we work closely with local factories and growers to protect this stunning natural landscape.

Rattan is ecologically very important, growing up to six metres a year in areas that cannot support other land products – such as those remaining

under flood waters for long periods of time. The real beauty as far as conservation is concerned is that rattan can only grow amongst existing trees such as fruit orchards and rubber estates, so it can accurately be claimed to encourage the preservation of forests in its very nature as a companion crop.

The social significance of rattan is no less. Ideally suited as a smallholder crop, it provides sustainable income to some of the poorest people living on the fringes of forests. It lends itself to uncomplicated labour-intensive processing and generates diverse employment.

You can buy Desser & Company furniture knowing that it is produced in accordance with Government Controlled Environmental Legislation and with sustainability as a high priority. We also promote Fair Trade and provide low Carbon Emission products.

Desser Care

It's important to look after your suite and with the correct care all your Desser products can last a lifetime.

As a general rule, cane furniture should be kept in a dry environment and not left under direct sunlight for prolonged periods. If the furniture is in a conservatory then we recommend that you move it around occasionally so that different parts are exposed to the sun. Where possible, blinds should be used.

A cane suite purchased from Desser has been individually made by hand using the highest quality materials to the most exacting standards of design and finish. If properly cared for it will provide a lifetime of pleasure.

The Quallofil fibre that is used in the cushions on the Camden, Hartford, Hudson and Seville provides a softer look and feel than other fillings, making for a more comfortable sit. It also gives a less rigid finish than a foam cushion, helping your suite to look more inviting! The cushions will need occasional plumping to help to maintain their shape.

Maintenance made easy

The cane frames should be cleaned by gently wiping with a soft, very slightly damp cloth and the use of a dry paintbrush to regularly dust between the grooves is a good idea. Alternatively a vacuum cleaner with a small brush attachment can be used.

An occasional spray of any good furniture polish will keep the cane looking its best – avoid applying benzene, thinners, abrasive creams or other potentially harmful chemicals.

Cushions should be turned as often as possible so that any fading caused by direct sunlight is evenly spread.

Remember, cane furniture is hand made from natural products, no two pieces are exactly the same which is all part of its natural beauty.

Pirelli webbing

Desser & Company is synonymous with comfort and durability as well as style, which is why we use the best support for our seats. Webbing is commonly used on traditionally upholstered chairs and sofas to ensure the frames are strong weight-bearing structures and that firm bases support the rest of the upholstery.

Our chosen type of webbing is extremely high quality Pirelli rubber webbing. With such strong foundations, you know you will be sitting comfortably for many years to come!

Dacron wrap

Style and permanence are important elements when choosing your suite, which is why we ensure that all our products are expertly designed and crafted using only the finest materials.

Used for upholstery filling and superior to lower density foams, Dacron wrap provides added insulation to your cushioning whilst also making the foams easier to slip in and out of the covers.

ARLINGTON

Whether you're looking for a new, stylish and contemporary suite or keen to give your conservatory, kitchen area, summer house or even living room a modern look, the new Arlington range is the answer. We have carefully fused together the comfort of traditional upholstered furniture with the practicality of conservatory furniture, giving you the Arlington suite. All upholstery is UK manufactured and finished with Dacron wrapped cushions, which are available in a wide range of fabrics to suit your taste.

THICKER BASE CUSHION FOR MAXIMUM COMFORT

SCATTER BACK

The sophisticated Burford suite boasts an intricately woven rattan core and a larger base cushion for added comfort and design. Aesthetically pleasing and comfortable, the Burford will be a great addition to any conservatory. With a natural-wash finish, this eye-catching suite will bring a modern chic feel to any conservatory.

The boxy shape has already made the Burford suite famous, and our **NEW** scatter-back option was highly requested by our customers! This new option provides extra comfort at the back and now enables you to mix and match fabrics to create your own unique suite.

Available options: 3 Seater (Traditional or Scatter Back option), Sofa (Traditional or Scatter Back option), Chair (Traditional Back Only), Left and Right facing Corner Sofas, Coffee Table, Lamp Table and Footstool. Scatter Cushions are available as optional extras.

Camden

D Grade Fabric Tulip

A new member of the Dessert family this year is the Camden, which brings a slight 1970s retro feel to our range. The curved shape of the suite gives an almost cocooning feeling when you sit down, with the finely woven wicker design being complemented by the quirky legs. The matching wooden table, with its clever dual drawer storage, is uber-cool and guarantees that your new suite will be the talk of the town! The fibre bases will ensure the upmost comfort.

Available options: 3 Seater, Sofa, Chair, Coffee Table (Natural Wash and Light Oak), Lamp Table (Natural Wash and Light Oak) and Footstool. Scatter Cushions are available as optional extras.

THE HENLEY CHAIR

A firm favourite with our design team, the Henley occasional chair is a much loved addition to this year's ranges. The fully upholstered back and arms, along with the foam seat cushion, provide great comfort. The shape of the Henley is quite traditional but the overall effect of the chair is very modern meaning that it will sit well as a feature piece in any design scheme and will also accompany many of our ranges as an accent chair. Available in Natural Wash only.

SCATTER CUSHION FABRICS

(S) Athena
39074

(S) Diamond
39066

Scatter cushions are available in any of our fabrics, but for 2018 we have chosen 2 additional fabrics this year that are only available as coordinating scatter cushions.

These 2 fabrics can also be combinations for the Burford and Stamford scatter-back sofas.
