Mattress packed: W30cm (11.8in) L30cm (11.8in) H80cm (31.5in) (0.072m³)

Weight: 6.6kg / 14.6lb

*Mattresses are handmade, so dimensions and weights can vary slightly.

Product is sold subject to JAY-BE[®] standard terms and conditions. See full terms at jaybe.com/legal

The JAY-BE[®] Toddler Pocket Sprung Anti-Allergy mattress is a premium option from the JAY-BE[®] Toddler mattress range. The higher specification pocket sprung interior provides your toddler with exceptional reactive support. Each of the micro-springs rest within their own individual pocket enabling them to move up and down independently. As your toddler moves during the night the springs respond in synchronisation with the contours of their body for optimum comfort.

This JAY-BE[®] Toddler mattress also embodies the latest anti-allergy technology – Purotex[®]. Actively creating a cleaner and healthier sleeping environment, Purotex[®] is one of the most innovative and beneficial mattress technologies to help ensure a peaceful night's sleep, especially for children who have a hyper-sensitive immune system.

Purotex[®] is a 100% natural pro-biotic remedy infused within the mattress fabric which absorbs moisture and lowers the presence of dust mites and other allergens, thereby helping to reduce the potential trigger of allergic reactions.

Engineered from recycled plastic bottles and sustainable fibres, the comfort layers are 100% recyclable and offer substantial support for growing bones and muscles. The Aerofibre comfort layers are hypoallergenic and unlike foam have an open cell structure which allows the free flow of air through the mattress, reducing moisture build up and in turn helping to prohibit mould and allergens. As a result, a more comfortable and temperature-controlled sleeping environment is experienced. Jay-Be[®] Aerofibre is also free from VOC's and harmful chemicals.

All JAY-BE[®] Toddler mattresses are backed by a five-year manufacturer's guarantee. Roll-packed for your complete convenience.
