# SUSTAINABLE DESIGN

**We are proud of our commitment to sustainable design and manufacture and consider ourselves pioneers of our industry. We were the world's first carbon neutral bedmaker back in 2011, and everything we produce is 100% recyclable so it need not go to landfill.**

We are committed to using 100% sustainable materials of the highest quality, using ethically sourced and certified fillings in our mattresses whilst the timber in our beautifully upholstered divans is sourced from managed forests that comply with the Forest Stewardship Council® (FSC®) and The Programme for the Endorsement of Forest Certification (PEFC™).

In fact we have gone the extra mile when it comes to transparency with our factories also achieving FSC® and PEFC™ multi-site certification. This guarantees full traceability and that our timber have been independently checked at every stage of processing, ensuring they comply with the highest environmental standards.
