

WATER RESISTANT, DUST MITE RESISTANT AND BREATHABLE

The water and dust mite resistant TEMPUR-FIT™ Mattress Protector consists of natural fibres which are both breathable and absorbent. The protector, available in white, features an 'intelligent membrane' that prevents the mattress from getting wet and is one of the thinnest of its type on the market.

As the picture demonstrates, it easily stretches to fit all TEMPUR® mattresses. Use it as an extra layer underneath your favourite bed linen. Choose a TEMPUR-FIT™ Mattress Protector to keep your bed fresh, clean, dry and comfortable for years to come.
